# Thermoflo GWA

**Factory - Packaged** 

52,000 to 245,000 Btuh Input

**Natural Gas or Propane** 

**Atmospheric (chimney) Venting** 

# **Gas-Fired Water Boiler**

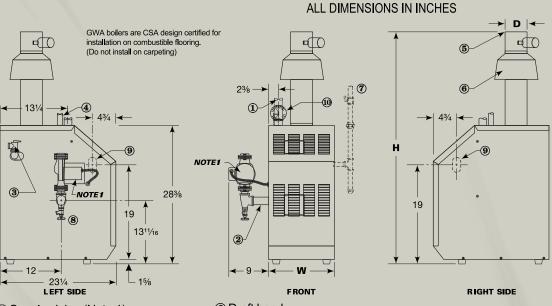

- Inferred heat program providing automatic adjustment of boiler water temperature to match demand
- Spark (intermittent) pilot system
- Control module with indicator lights
- □ Easy service
  - One-piece access door
  - •All controls in easy reach
- □ High efficiency
  - Flue baffles
  - Stainless steel burners
  - Automatic vent damper
- Cast iron sections with built-in air separator
- Insulated heavy-guage steel jacket

# **RATINGS**

- (1) Supply piping (Note 1)
- ② Return piping (Note 1)
- 3 Relief valve, 3/4" NPT
- 4 1/2" NPT to expansion tank/air vent
- (5) Vent connection to vent damper
- 6 Draft hood
- The state of th
- ® Drain valve
- (g) Gas supply entrance (right or left side)
- n Pressure/temperature gauge

Note 1: Boiler supply and return tappings are 1 1/4" NPT. Circulator flanges shipped with boiler are sized to recommended pipe size listed in RATINGS table, above.

> Boiler circulator is shipped loose. Circulator may be mounted on either boiler supply or return piping

## **EQUIPMENT**

- · Factory tested
- Insulated heavy-guage steel jacket
- · Cast iron sections with built-in air separator
- Vertical draft hood
- Electrical junction box
- 24-VAC combination gas valve
- Combination relay receptacle and 40VA transformer and plug-in circulator relay
- Taco 007 circulator

#### · Stainless steel burners

- High temperature limit control
- Automatic vent damper
- 30 PSIG ASME relief valve
- Combination pressure/temperature gauge
- Spark-ignited (intermittent) pilot system
- Electronic ignition/flame supervisory control

## WARRANTY

- Limited lifetime warranty on heat exchanger
- · 1-year limited warranty on parts
- Optional 5 or 10-year parts and labor warranty

Form No. T-001 (0912)

Based on standard test procedures prescribed by the United States Department of Energy.

Net AHRI ratings are based on net installed radiation of sufficient quantity for the requirements of the building and nothing need be added for normal piping and pickup. Ratings are based on a piping and pickup allowance of 1.15. An additional allowance should be made for unusual piping and pickup loads.

Contact your local dealer regarding information and parts for high altitude applications.
